

SMEs PARTICIPATION IN THE PUBLIC PROCUREMENT AGENCY OF THE DOMINICAN REPUBLIC

By Crystal Fiallo Scanlon, deputy director DGCP

Strategic Orientation of Public Procurement

Our Constitution establishes: Article 222.- Promotion of popular economic initiatives.... *"promotes the conditions for the integration of the informal sector into the national economy; encourages and protects the development of micro, small and medium-sized enterprises, cooperatives, family businesses and other forms of community partnership for work, production, savings and consumption, which generate conditions that allow them to access timely financing, technical assistance and training.*

DR-CAFTA: establishes that the governments that sign the Agreement may carry out Public Procurement processes for SMEs.

Law 488-08: gives the mandate to all institutions: they have to spend the 20% of their Public Procurement Budget buying SMEs. We monitor this compliance through SISCOMPRAS.

Transactional Portal Public Procurement and Contracting

It is a web platform that allows the realization of purchasing processes, from planning to contract management, with 24/7 availability, from anywhere in the world.
